

## DR. BHARGAVI JOIS

Consultant - Nuclear Medicine

### Qualification

MBBS | DRM - Mumbai | DNB (Nuclear Medicine), Mumbai. | FEBNM - European Board Fellowship in Nuclear Medicine, Barcelona, SPAIN | RSO

### Overview

Dr. Bhargavi Jois is a consultant specialising in nuclear medicine with more than 12 years of experience. She's working at the Old Airport Road Hospital in Manipal. The doctor deals with serious issues such as neuroimaging, on-imaging, and theranostics. She has a comprehensive understanding, which she can recall whenever needed. She uses conventional nuclear medicine imaging and radioactive iodine therapy to treat malignant and benign thyroid disease. She also offers treatments for prostate cancer, metastatic neuroendocrine tumours, and bone disease using Lutetium-177 and Actinium-225 peptide receptors. She has treated several severe medical incidents and is known for her dedication to her patients, accurate diagnosis, and treatment. She is personable, a good listener, and responsive to patient concerns. She has excellent communication skills, from patient contact to staff teamwork to conversations with loved ones. She understands and examines clearly and concisely what is happening to her patients, being professional yet personable while ensuring they understand what is happening. Engaged with a multidisciplinary team, she is critical in ensuring accurate information is shared with her teammates. Dr. Bhargavi is the best nuclear medicine physician in Bangalore. Dr. Bhargavi Jois has participated in several talks at national and international conferences. She has also trained doctoral students and published her papers in internationally indexed publications. She is a valuable participant in many organisations. She is an employee of the Ministry of Atomic Energy, Mumbai. She is also a member of the European Society of Nuclear Medicine in Vienna, Austria. Patients often want to know that a renowned pharma tycoon does not own their doctor. She advises impartially, eliminating natural biases, unfactual opinions, and corporate influence. Other commonly cited traits of her are her willingness to consider patients' wishes in her decision-making process and her willingness to collaborate with other healthcare professionals on behalf of her patients. This includes helping patients obtain prescription drugs, making emergency appointments, enrolling in patient assistance programs, and receiving needed services. She always strives for the health of her patients. Dr. Bhargavi Jois is also a Life Member of the Indian Society of Nuclear Medicine. She is also a BRIT (Radioisotope Technical Committee) Certified Hospital Radiopharmacist. Additionally, she is a member of the European Commission for Nuclear Medicine in Barcelona, Spain. She is also the Radiation Safety Officer (Nuclear Medicine) at Mumbai's Baba Nuclear Research Center. Her enthusiasm and strong desire for what she does make her career rewarding and satisfying, helping her patients and society collectively.

### Fellowship & Membership

- Fellow of European Board of Nuclear Medicine, Barcelona, Spain
- Member of European Association of Nuclear Medicine, Vienna, Austria

- Lifetime member of Society of Nuclear Medicine of India
- Radiological safety officer (Nuclear medicine) from Bhabha Atomic Research Centre (BARC), Mumbai
- Certified Hospital Radiopharmacist from Board of Radiation and Isotope Technology (BRIT), Department of Atomic Energy, Mumbai

## Field of Expertise

- Onco-imaging
- Neuroimaging
- General Nuclear Medicine Imaging
- Theranostics including radio-iodine therapy for benign and malignant thyroid diseases; Actinium-225 and Lutetium-177 Peptide receptor therapies for Metastatic neuroendocrine tumors and prostate cancers; Bone pain palliation

## Languages Spoken

- English
- Hindi
- Kannada
- Marathi

## Awards & Achievements

- Attended and presented several papers in National and International conferences, CME s
- Publication in International indexed journal
- Training post graduate students
